WEBSITE MAINTENANCE

<http://www>

We are looking for someone to help maintain the many websites that we manage on a part-time contract basis.

This individual must excel in customer relations, be polite and well organized.

Competence in Dreamweaver, XHTML, CSS and Photoshop are pre-requisites.

All work will be done in our office for one day a week. Because our website work has greatly increased and continues to do so, employment could lead to additional hours for the right person.

Call or email Bonnie James . . .

613-432-9491
